

January 24, 2008

Dear friends and Basset Lovers:

This is Louie. He is at the Animal Medical Center in El Cajon. He was hit by a car today and then relinquished to animal control. Animal control called Basset Rescue and we got him started on the road to recovery. He will be having surgery Monday January 28th to repair a broken hip. He is expected to make a complete recovery. His estimate for the surgery is \$1,800. That does not include the x-rays and medications before and after Monday. I am asking that you please copy this flyer and place it where it can reach people that can donate. Donations can be made directly to the Animal Center or for a tax deduction to Basset Hound Rescue & Adoption, Inc. We can receive cash, checks and Visa and Master Card. If interested please contact Jerri Caswell at 619-286-8638 or visit our web site at www.bassetrescuesandiego.org.

Louie is 1 1/2 years old and a real sweet boy. No complaints and not even a curled lip with all his pain. / Please help us help him.
